Eighth Edition

Transmission Ballycastle

In partnership with Ballycastle Chamber of Commerce and Causeway Coast and Glens Borough Council

Transmission Ballycastle explores and promotes Ballycastle town as a multidisciplinary space for dialogue between architecture, urban planning, visual arts, sociology, histories and heritage. Prompted by an examination of how identity and place are communicated through architecture and landscape, Transmission Ballycastle presents a series of exhibitions, installations, screenings and talks developed by The Belfast School of Architecture and the Environmental Sciences Research Institute, Ulster University in collaboration with local residents and shopkeepers.
